

ANDREA
CAMOIA

/ Turin, Italy / andreacamoia10@gmail.com /

+ == . / CV / EDUCATION == +

Master in Computer Science, curriculum in Artificial Intelligence **2024 - present**

University of Turin

GPA: 29.3/30

Bachelor's Degree in Computer Science

2021 - 2024

University of Salerno

Final grade: 110/110 cum Laude

Thesis in Software Engineering and Artificial Intelligence

+ == . / CV / PUBLICATIONS == +

Turning AI into a regulatory sandbox: exploring information disorder mitigation strategies with ABM and deep reinforcement learning **2025**

R. Zaccagnino, N. Lettieri, D. Malandrino, L. Lomasto, A. Camoia, A. Guarino

Springer Nature, Neural Computing and Applications

Contributed to the development of a platform for studying and countering Information Disorder, integrating model-driven and data-driven approaches into a hybrid strategy.

+ == . / CV / PROJECTS == +

Lara Dialogue System

2025

Developed an interactive dialogue system for interview simulations, featuring advanced Natural Language Understanding (Syntactic Parsing, POS Tagging, NER) and context-aware dialogue management. Implemented in Python using spaCy Transformer models and a hybrid approach for dynamic response generation.

More info at: github.com/AndCamo/LaraCroft-ChatBot

Clean Desk

2024

Developed a cross-platform desktop application (Windows/macOS) that leverages AI to reorganize folder structures based on file semantics. Managed the full lifecycle, from training ML models for content classification to full-stack implementation following software engineering best practices.

+ == . / CV / SKILLS == +

Python

Advanced knowledge in Python programming, with experience using data analysis and machine learning libraries (Pandas, NumPy, scikit-learn), NLP, and backend development.

Machine Learning & Deep Learning

Extensive and evolving knowledge of Machine Learning and Deep Learning principles, with experience in implementing various neural network architectures using PyTorch.

HTML, CSS, JavaScript

Hands-on experience in web technologies, leveraging Electron and Node.js to develop cross-platform desktop applications.

Efficient Attention to Detail

Strong attention to detail and a proactive mindset in optimizing all components of a project, ensuring that every task is refined to its highest standard without compromising timelines.

+ == . / CV / LANGUAGES == +

Italian (native)

English (B1)
